

Advanced Workshop on
Structure and Function of mRNP

4-8 August 2008

University of Aarhus - Denmark

An advanced workshop for PhD students and postdocs on "Structure and Function of mRNP" will be held at the University of Aarhus, Denmark, 4-8 August 2008, under the auspices of the Danish National Research Foundation and the European Science Foundation.

Subjects - mRNP quality control - mRNP formation
- RNA helicases - mRNA localization
- Structure of mRNP complex

Teachers Claire Moore, Tufts University, Boston, USA
Bertrand Seraphin, CNRS, Gif Sur Yvette, France
Neus Visa, Stockholm University, Sweden
Eckhard Jankowsky, Case Western Reserve University, Ohio, USA
Maria Carmo-Fonseca, Inst. De Medicina Molecular, Lisbon, Portugal
Michael Kiebler, Medical University of Vienna, Austria
Gregers R. Andersen, University of Aarhus, Denmark
Ditlev Brodersen, University of Aarhus, Denmark
Torben Heick Jensen, University of Aarhus, Denmark

Organizer Torben Heick Jensen, Centre for mRNP Biogenesis and Metabolism
Department of Molecular Biology, University of Aarhus, Denmark

Application deadline: 15th April 2008

Applications (max. three pages) including a brief CV and a letter of recommendation from your supervisor should be sent to:
Bjarne J. Bonven: bjb@mb.au.dk

Free registration, accommodation and meals
Travel expenses will not be covered.
