European Collaborative Research

ECRP II
European Collaborative Research Projects

Political Communication
Cultures in Western Europe –
A Comparative Study

www.esf.org
ECRP stands for European Collaborative Research Projects in the Social Sciences.

The ECRP Programme is designed to advance international research collaboration in the social sciences by encouraging European academic networking and pooling of research expertise. The Programme offers an opportunity to carry out problem-driven multilateral projects on any topic within the Social Sciences that demonstrates an international framework for research collaboration. Projects need not be exclusively European in their topic focus.

• ECRP is part of the EUROCORES Scheme that provides a flexible framework to support top class European research in and across all scientific areas.
• Research funding is provided by participating national research funding and research performing agencies.
• The European Science Foundation provides the Programme coordination and supports scientific networking of funded scientists in different EUROCORES ECRP Programmes.
• EUROCORES ECRP funds research in the social sciences that is only of the highest quality, is innovative and collaborative.
The objective of the international study **Political Communication Cultures in Western Europe** is to analyse the attitudes, norms, and values that drive the relationship between political actors and journalists and thereby detect the underlying patterns of political communication behaviours in Western democracies. Taken together, these orientations can be summarised under the term “Political Communication Culture” of a country.

By surveying 300 members of the political and media elite in each country, the study aims to systematically map out the existing types of political communication cultures in Western Europe and detect similarities and differences across countries.

In the first phase of the project, surveys will be carried out in seven Western European countries: Austria, Denmark, Finland, Germany, Spain, Sweden and Switzerland. In each of these countries, renowned university scholars in the field of political communication are conducting the investigation. In a second phase of the project, surveys are planned in France, Italy, and the UK.

The project is carried out under the auspices of the EUROCORES ECRP 2006 Programme. Funding is mainly provided by the national Funding Organisations of the participating countries (DFG, FWF, SNF, FIST, MEC, AKA, VR).

Participants

Germany – University of Hohenheim

Professor Barbara Pfetsch is Professor of Communication and Media Policy at the University of Hohenheim, Germany. She previously held a position as senior researcher at the Science Centre for Social Research in Berlin and taught at the Free University of Berlin and the University of Mannheim. She was a Fellow at the J.F. Kennedy School of Government at Harvard University and the Centre for German and European Studies at Georgetown University, Washington D.C.

pfetsch@uni-hohenheim.de

Mr. Peter Maurer is a researcher at the University of Hohenheim, Department of Media Policy. He graduated in Political Science, Media Studies and French from the Universities of Mainz and Strasbourg.

pmaurer@uni-hohenheim.de

Ms. Eva Mayerhöffer is a researcher at the University of Hohenheim, Department of Media Policy. She graduated in Communication Science from the Universities of Hohenheim, Stuttgart and Santiago de Chile.

eva.mayerhoeffer@uni-hohenheim.de

Austria – University of Innsbruck

Professor Fritz Plasser is Professor of Political Science and Dean of the Faculty of Political Science and Sociology at the University of Innsbruck, Austria. He has taught as a Fahrenkopf-Mannatt Visiting Professor at the Graduate School of Political Management of George Washington University, Washington D.C. He has been a Visiting Fellow at the J. F. Kennedy School of Government at Harvard University.

fritz.plasser@uibk.ac.at

Professor Günther Pallaver is Professor of Political Science at the University of Innsbruck, Austria and Dean of studies at the faculty of Political Science and Sociology. He is co-founder of the research group MediaWatch, Institute for Media Analyses, in Austria.

guenther.pallaver@uibk.ac.at

Dr. Günther Lengauer is Head of the Research Department of MediaWatch, Institute for Media Analyses in Innsbruck, Austria. He holds a PhD in Political Science from the University of Innsbruck and a M.A. in Communication from the University of Illinois at Chicago.

guenther.lengauer@uibk.ac.at

Denmark – University of Roskilde

Dr. Anders Esmark is Associate Professor at the University of Roskilde, Denmark and holds a PhD in Political Science from the University of Copenhagen. He has been a Visiting Scholar at the University of Berkeley and at the University of California, San Diego.

esmark@ruc.dk
Finland – University of Helsinki

**Professor Tom Moring** is Professor of Communication and Journalism at the Swedish School of Social Science at the University of Helsinki, Finland. He holds a PhD in Political Science from the University of Helsinki. He previously was Director of Programmes at the Finnish Broadcasting Company as well as Secretary General of the European Bureau for Lesser Used Languages.
moring@mappi.helsinki.fi

**Mr. Miika Samuli Vahamaa** is a researcher at the University of Helsinki, Department of Communication. He holds a masters degree in Social Science from the universities of Helsinki, Lund and Asheville in North Carolina.
mika.vahamaa@helsinki.fi

Spain – University of Barcelona

**Professor Juan Díez Medrano** is Professor of Sociology at the University of Barcelona, Spain and at the International University Bremen, Germany. In 2006, he held the Einaudi Chair in International Relations and European Studies at Cornell University. He has been a Fellow at the Centre of Advanced Social Studies in Madrid and a Visiting Scholar at the Wissenschaftszentrum für Sozialforschung, (WZB), Berlin, Germany.
jdiezmedrano@ub.edu

**Ms. Claudia Krauter** is a research assistant at the University of Barcelona/Institut Barcelona d’Estudis Internacionals (IBEI), Spain. She holds a masters degree in International Relations from IBEI.
ckrauter@campus.ibei.org
Sweden – Halmstad University

Dr. Nicklas Hakansson is a Senior Lecturer and Director of Studies for Political Science/Political Communication studies at Halmstad University, Sweden. Previously he worked as a senior lecturer in Media and Communication studies at West Sweden University and as a researcher at the Centre for Public Sector Studies (CEFOS) at Gothenburg University. He holds a PhD in Political Science from Gothenburg University.

Nicklas.Hakansson@hos.hh.se

Ms. Lilli Weber holds a bachelor’s degree in Public Administration (major field: Political Science) from the University of Umeå. Since August 2006, she has been working as a project assistant at the Department of Political Science, School of Social and Health Science at Halmstad University.

Lilli.Weber@hos.hh.se

Switzerland – University of Zurich

Professor Otfried Jarren is Professor of Mass Communication and Media Research at the University of Zurich, Switzerland and Director of the Institute of Mass Communication and Media Research at the University of Zurich (IPMZ). He is Deputy Director of the Swiss National Research Programme (NCCR) “Challenges to Democracy in the 21st Century”, founded by the Swiss Science Foundation. He was head of the “Swiss Centre for Studies on the Global Information Society (SwissGIS)”.

o.jarren@ipmz.uzh.ch

Dr. Patrick Donges is a Senior Assistant at the University of Mass Communication and Media Research at the University of Zurich (IPMZ). He just finished his graduation with a Postdoctoral qualification (Habilitation) with a study on Mediatisation and structural change within political organisations like parties.

donges@ipmz.uzh.ch

Ms. Stephanie Schwab graduated in Political Science, Social Anthropology and International Law at the universities of Zurich and Berlin. She is a project assistant at the Institute of Mass Communication and Media Research at the University of Zurich (IPMZ), Switzerland.

s.schwab@ipmz.uzh.ch
Phase 1: Development of the Questionnaire
To find out about the attitudes of the political and media elites to the process of political communication, a standardised quantitative questionnaire has been developed which includes items relating to attitudes to: (1) the underlying structural conditions of the political and media system; (2) the influences of public opinion; (3) the generation and the framing of political issues and the techniques of issue-management; and (4) the normative orientations of the actors to their mutual relationship.

Phase 2: Identification of Relevant Samples
For each country, an individual sampling scheme has been developed which allows identification of the envisaged number of 300 members of the political and media elite. All sampling schemes follow a positional approach. The political elite is comprised of politicians in elected office, party elites and political spokespersons. In some countries, members of interest groups and the administration are included as well. The media elite consists of the most important journalists reporting on national politics in each country.

Phase 3: Field Work
The interviewing process itself is planned for spring 2008. For the interviews, the participating country teams will work with renowned research institutes in their respective countries. Interviews will be conducted mainly by telephone (CATI), supplemented by face-to-face interviews.

Phase 4: Data Analysis
After having completed phase 3, the responses will be thoroughly analysed using statistical methods. In doing so, truly comparative conclusions can be drawn about the state of political communication culture in Western Europe. We expect to identify various types of political communication culture and link them to specific institutional settings and actor constellations.

Phase 5: Dissemination of Findings
After completing the project, the relevant findings will be published together in a book. Dissemination of findings will also take place via scientific journals as well as presentations at international conferences. Findings, however, are not only of academic value, but also allow insight that is of practical relevance for politicians and journalists themselves. It is therefore envisaged to additionally disseminate the findings in conferences in the national capitals of the participating countries in order to discuss them with practitioners in the field.
Political Communication Cultures in Western Europe is a comparative study which aims at analysing the relationship between political elites and the media in seven Western European countries. We investigate the attitudes, norms, and values that generate the milieu in which politicians, communication advisers and journalists interact on a daily basis.

All in all, more than 2000 politicians, professionals and journalists will be interviewed in a standardized survey. By highlighting the specific milieus of political communication we expect to make a major contribution to understanding the representation of politics in modern Western media societies.

Our study is part of the European Science Foundation’s EUROCORES programme for European Collaborative Research Projects (ECRP) which is an ideal format for conducting comparative research across Europe. With the support of the ESF the project brings together some of Europe’s most renowned researchers in political communication. By coordinating and supporting our network the ESF provides us with a unique opportunity to study the cultures of political communication across Europe.

Professor Barbara Pfetsch
Chair of Communication Science/Media Policy
University of Hohenheim (Germany)
The aim of the European Collaborative Research (EUROCORES) Scheme is to enable researchers in different European countries to develop collaboration and scientific synergy in areas where European scale and scope are required to reach the critical mass necessary for top class science in a global context. The scheme provides a flexible framework which allows national basic research funding and performing organisations to join forces to support excellent European research in and across all scientific areas. The European Science Foundation (ESF) provides scientific coordination and support for networking activities of funded scientists currently through the EC FP6 Programme, under contract No. ERAS-CT-2003-980409. Research funding is provided by participating national organisations.

www.esf.org/eurocores

THE FOLLOWING NATIONAL FUNDING ORGANISATIONS SUPPORT THE ECRP SCHEME:

- **Fonds zur Förderung der wissenschaftlichen Forschung (FWF)** - Austrian Science Research Fund, Austria
- **Fonds voor Wetenschappelijk Onderzoek – Vlaanderen (FWO)** - Research Foundation Flanders, Belgium
- **Research Promotion Foundation (RPF)** - Cyprus
- **Grantová agentura České republiky (GAČR)** - Czech Science Foundation, Czech Republic
- **Forsknings- og Innovationsstyrelsen (FIST)** - Danish Agency for Science Technology and Innovation, Denmark
- **Suomen Akatemia/Finlands Akademi (AKA)** - Academy of Finland, Finland
- **Centre National de la Recherche Scientifique (CNRS)** - National Centre for Scientific Research, France
- **Deutsche Forschungsgemeinschaft (DFG)** - German Research Foundation, Germany
- **The Icelandic Centre for Research (RANNÍS)** - Iceland
- **Irish Research Council for Humanities and Social Sciences (IRCHSS)** - Ireland
- **Fonds National de la Recherche (FNR)** - National Research Fund, Luxembourg
- **Nederlandse Organisatie voor Wetenschappelijk Onderzoek (NWO)** - Netherlands Organisation for Scientific Research, Netherlands
- **Norges Forskningsråd (NF)** - Research Council of Norway, Norway
- **Polska Akademia Nauk (PAN)** - Polish Academy of Sciences, Poland
- **Ministry of Scientific Research and Information Technology**, Poland
- **Ministerio de Educación y Ciencia (MEC)** - Ministry of Education and Science, Spain
- **Forskningsrådet för arbetsliv och socialvetenskap (FAS)** - Swedish Council for Working Life and Social Research, Sweden
- **Vetenskapsrådet (VR)** - Swedish Research Council, Sweden
- **Schweizerischer Nationalfonds zur Förderung der Wissenschaftlichen Forschung (SNF)** - Swiss National Science Foundation, Switzerland
- **Türkiye Bilimsel ve Teknolojik Araştırma Kurumu (TÜBİTAK)** - The Scientific and Technological Research Council of Turkey, Turkey
- **Economic and Social Research Council (ESRC)** - United Kingdom
European Collaborative Research Projects (ECRP) and the ESF Standing Committee for the Social Sciences (SCSS)

The ECRP Scheme is supported by the Standing Committee for the Social Sciences (SCSS) which is chaired by Professor Sir Roderick Floud (Professor Emeritus of London Metropolitan University); the Committee is composed of its members, leading scientists nominated by the ESF Member Organisations (research councils or academies) working in social sciences, and observers from other social science institutions. Along with national experts several observers from key social science institutions are also participating in two plenary meetings per year helping to shape the SCSS’ role in the European Research Area.

The task of the committee is to advance Social Sciences on a European level by supporting innovative research ideas and approaches from the scientific community. Scientific agenda setting is therefore a crucial element of Standing Committee work.

The social sciences encompass a range of disciplines that aim to examine and explain human functioning on a variety of interlocking levels, ranging from neural foundations to individual behaviour, group processes and the functioning of entire societies. Consequently, the social sciences employ a wide variety of methods which address the different levels of analyses that are necessary. Whilst the methods are contrasting, they have been tailor-made to be scientifically rigorous, and to ensure that reliable knowledge is secured.

Against this background, the SCSS funds and develops initiatives in the fields of psychology and the cognitive sciences, pedagogic and education research, social anthropology, sociology and gender studies, economics, business and administrative sciences, geography, demography, environmental sciences, law, political sciences, communication sciences, international relations, social statistics and informatics.

The European Science Foundation (ESF) provides a platform for its Member Organisations to advance European research and explore new directions for research at the European level. Established in 1974 as an independent non-governmental organisation, the ESF currently serves 77 Member Organisations across 30 countries.
