

Madrid, ROYAL BOTANIC GARDEN

17–18 November 2008

1st Workshop of the ESF Member Forum on Research Integrity

The **objectives** of the workshop are:

- To present the present case studies of how research integrity guidelines and codes of conduct are practically implemented and identify in discussions some best practices.
- To present recent initiatives aiming to foster international collaborations in promoting research integrity.
- To discuss the frame of “Coordinated Approaches to Research Integrity” in Europe and beyond and which activities and resources are needed.

SUNDAY 16 NOVEMBER 2008

20.00 Meet and Greet Dinner (hosted by ESF)

MONDAY 17 NOVEMBER 2008

20'	9.00	Opening and Welcoming by the Chairs <i>Pere Puigdoménech & John Marks</i>
30'	9.20	Research Integrity at CSIC - <i>Juan José de Damborenea, CSIC</i>
Session I : Research Integrity principles and their implementation – Chair: Pere Puigdoménech		
45'	9.50	Research Integrity approaches in European countries – an overview <i>John Marks, Deputy Chief Executive ESF [with 15 minutes questions]</i>
	10.35	Break
30'	10.50	National Advisory Board on Research Ethics, Finland <i>Eero Vuorio , Chancellor, University of Turku, Finland</i>
30'	11.20	Code of Conduct and Policy on the Governance of Good Research Conduct in UK <i>Glyn Davies, Research Councils UK</i>
30'	11.50	Perspectives of the research community - three statements for Research Integrity <i>Sebastião J Formosinho, Chemistry Department, University of Coimbra, Portugal</i>
30'	12.20	Ethics of authorship in reporting results <i>Pavel Kratochvil, Academy of Sciences of the Czech Republic</i>
	13.00	Lunch
30'	14.30	A State preoccupation in France: improving integrity in science: establishing principles, guidelines, and procedures with fairness and at low cost in cooperation with scientific institutions – <i>Jean Pierre Alix, CNRS, France</i>
30'	15.00	Investigating Allegations of Research Misconduct: a Perspective from the US National Science Foundation with Case Studies <i>Peggy Fischer, Associate Inspector General for Investigations of the National Science Foundation Office of Inspector General, NSF</i>
1 h	15.30	Open discussions on best practices in implementing the codes of conduct and research integrity guidelines (at institutional and national level) - facilitated by Pere Puigdoménech
15'	16.30	Coffee Break
Session II: International collaborations in research integrity		
30'	16.45	Investigating Research Misconduct in International Collaborations: Report on the Global Science Forum (OECD) Working Group Recommendations <i>Christine Boesz, Inspector General of the NSF and co-chair of the GSF Committee</i>

30'	17.15	Report of the first World Conference on Research Integrity and plans for the second conference – a joint initiative by ESF and the US Office of Research Integrity <i>Tony Mayer, Nanyang Technological University</i>
30'	17.45	Report on Efforts to Develop a Global Clearinghouse for Research Integrity (GC4RI) <i>Nicholas H. Steneck, University of Michigan & Office of Research Integrity</i>
	18.15	End of day one
	20.00	Dinner (hosted by CSIC)

TUESDAY 18 NOVEMBER 2008

Session III: Towards coordinated approaches on research integrity in Europe and beyond - Chair : John Marks

30'	9.00	Research Integrity in scientific communication – <i>Emma Campbell, Publications Committee of the European Association of Science Editors (EASE)</i>
30'	9.30	A Global Perspective on Research Integrity - recent ICSU activities– <i>Carthage Smith, International Council for Science (ICSU)</i>
15'	10.00	Research Integrity – the perspectives of the universities - <i>Alan Donnelly (University of Limerick, on behalf of the European University Association)</i>
15'	10.15	Scientific Red Cards - An initiative to establish an inventory of scientific publications for which research misconduct has been assessed - <i>Claire Ribault, Scientific Red Card Team, FR</i>
15'	10.30	Break
1'	10.45	Coordinated Approaches on Research Integrity in Europe – facilitated by J. Marks <i>ESF, together with ALLEA and the UK Office of Research Integrity has developed a project to promote a coordinated approach on research integrity in Europe (ECARI). In this session we will discuss which elements of the initiative should be taken forward and how to secure the resources needed.</i> In this first part, representatives of the initial consortium will present the perspectives of their “constituencies” <ul style="list-style-type: none"> - Pieter Drenth - Promotion of scientific integrity: the role of Academies of Sciences - Andy Stainthorpe – The role of a network of national integrity offices can play - Alexis-Michel Mugabushaka- The perspectives of research funding organizations and research performing organizations
1 h 30'	12.00	Lunch
1.30'	13.30	Coordinated Approach on Research Integrity in Europe (continued) <i>Action and activities required to facilitate coordinated approaches to research integrity among research organizations in Europe</i>
Closing session :		
	15.00	Closing remarks by the Chairs
	15.45	Closing

The Workshop is kindly hosted by CSIC
