# ESF – Beyond CNCC

## **EUROCORES programme under development:**

### **“Understanding and Misunderstanding: *Cognition, Communication and Culture*” (*EuroUnderstanding*)**

To understand the social generation of misunderstandings EuroUnderstanding will analyze the conditions for interpersonal, intra-group and intergroup understanding: the coordination of joint action, the sharing of values, meanings and experiences and the exchange of information, whether face-to-face or mediated by communication technologies.

# ESF – Beyond CNCC

EuroUnderstanding will link research in the humanities, social and life sciences and will be thematically structured around four dimensions:

- Intersubjectivity: Shared Understanding
- Interobjectivity: Shared worlds
- Cultural and Cognitive Dynamics
- Ideology, Identity and Belief

**If the programme is viable, then EuroUnderstanding is expected to be launched by 19 December 2009.**
