

List of Accepted Posters			
	Surname	First Name	Poster Title
1	Aguilera	Margarita	DNA Biobank for Pharmacogenetics analyses in the Hospital Virgen de las Nieves
2	Allen	Dominic	The practicalities of establishing a biobank and harmonized technical specifications
3	Arriaga Aragón	Angel	Use of formalin-fixed tumour tissues to obtain dna: an approach for DNA-based studies when fresh frozen specimens are not available
4	Bédard	Karine	CARTaGENE Governance Mechanism: Past, Present and Future
5	Bilbao	Roberto	Basque Biobank for Research
6	Bjugn	Roger	Can a public hospital be turned into a public biobank? - Management of consent, personal data and technical infrastructure
7	Calleros	Laura	The REDinREN Biobank
8	Cardoso	Sergio	Sampling by means of mouthwash: an excellent DNA source
9	Carletti	Fabrizio	The biobank of the National Institute for Infectious Diseases
10	Carotenuto	Dario	Da Vinci European Biobank: A Semantic Approach for Interoperable Biobanks
11	Cornet	Patricia	UCL Biobank implementation and inter-university collaboration for building a Belgian Biobank network
12	Dassesse	Thibaut	Biobanking to support high quality driven Translational Research Program
13	Elcoroaristizabal	Xabier	Authentication of samples in BioBanks
14	Greenall	Austin	Remote saliva collection and surveying as key enabling methodologies for the establishment of a modern genetic repository
15	Haslacher	Helmuth	Preanalytical factors influencing the quality of mRNA preparations from human PBMCs
16	Jacobsen	Hans-Henry	EUTRO – an IT solution for biobank information management system
17	Jaconi	Marisa	Derivation and banking of stem cells: the Swiss situation and the Genova GMP cell therapy center.
18	Kamm	Liina	Software Solution for the Estonian Genome Project
19	Kharaboyan	Linda	ELSI challenges for the Canadian Cancer Cohort
20	Marta	Barreto	Using Genetics to Promote Health and Prevent Disease

21	Mayrhofer	Michaela Theresia	BBMRI - Biobanking and Biomolecular Resources Research Infrastructure
22	Mena	Salvador	Integrated Management Structure for University of Barcelona Biobanks Project (U3B)
23	Oste	Christian	The Evolution of a High Capacity, Multi-user Sample Management Network
24	Palau	Nuria	Spanish national biobank for neuropsychiatric diseases
25	Parodi	Barbara	The National Cancer Centre of Genoa in the Regional and Italian networks of biobanks
26	Pumarola	Martí	Animal Tissue Bank of Catalunya (BTAC)
27	Ravid	Rivka	Biobanking for diagnostic markers in neurological disorders
28	Sargsyan	Karine	Governing an academic biobank. What are the challenges? The way from sample collection in research projects to institutional Biobank at the Medical University Graz
29	Schraml	Peter	Standardization and quality control procedures in establishing a tumor biobank for cancer research
30	Sobanska	Ewa Marzena	Expression of HER-2 receptor in tissue and tumor effusion cells in relation to its concentration in sera, cyst and ascitic fluids of patients with ovarian carcinoma
31	Vilella	Elisabet	Implementation of a ISO 9001:2000 Quality system in the Biobank of Reus (Spain)
32	Villena	Cristina	Establishment of a Lung Tissue Biobank (Biobanco Pulmonar)
33	Von Eberstein	Huberta	popgen, a National Disease Specific Biobank for Germany Providing Phenotypes and Genome-Wide SNP Data
34	Woods	Victoria	The Wales Cancer Bank
35	Yang	Nannan	EUTRO – an IT solution for biobank information management system
