

LIST OF ACCEPTED POSTERS

Nr	Surname	First Name	Institution	Abstract Title
<u>1</u>	Amu	Sylvie	Karolinska Institutet, Stockholm, Sweden	Identification of IL-10 producing B cell subsets in HIV-1 negative and infected individuals
<u>2</u>	Becker-Herman	Shirly	Weizmann Institute of Science, Rehovot, Israel	Cross-talk between the MIF/CD74 and BAFF induced cascades
<u>3</u>	Berkowska	Magdalena	Sanquin, Amsterdam, Netherlands	Evolution of alloimmune B-cell responses after deliberate anti-D immunization in human
<u>4</u>	Björkman	Andrea	Karolinska Institutet, Stockholm, Sweden	Altered usage of proximal and distal immunoglobulin variable genes in patients with Cornelia de Langes syndrome
<u>5</u>	Bürckert	Jean-Philippe	CRP-Santé, Luxembourg, Luxembourg	Probing the B cell repertoire with low molecular weight hapten conjugates
<u>6</u>	Calderon-Gomez	Elisabeth	IDIBAPS Hospital Clínic de Barcelona, Spain	Identification of IL-10 producing B cells in the human gut mucosa
<u>7</u>	Dodev	Tihomir Stanimirov	King's College London, United Kingdom	Rapid cloning method for the generation of different antibody isotypes with any desired specificity
<u>8</u>	Dos-Santos	Washington	Fundação Oswaldo Cruz, Salvador, Brazil	CANINE VISCERAL LEISHMANIASIS AND SPLENIC PLASMA CELLS REDISTRIBUTION
<u>9</u>	Dubois	Axel	Centre de Recherche Public de la Santé (CRP-Santé), Luxembourg, Luxembourg Institut Jules Bordet Université Libre de Bruxelles, Brussels, Belgium	Complexity and Modeling of the B cell Repertoire of OmniRat, an Ig-Knockout Rat carrying Germline Human Heavy and Light Chain Loci. Characterization of B-cells present in organized tumor-associated tertiary lymphoid structures in human breast cancer
<u>10</u>	Garaud	Soizic	Belgium	CD74 as a transcription factor
<u>11</u>	Gil-Yarom	Naama	Weizmann institute, Rehovot, Israel	Induction of IL-10 producing B cells by helminth-derived antigens
<u>12</u>	Haeberlein	Simone	LUMC, Leiden, Netherlands	B-cell responses after vaccination with the novel attenuated nasal B. pertussis vaccine strain BPZE1.
<u>13</u>	Jahnmatz	Maja	Swedish Institute for Communicable Disease Control, Solna, Sweden	Innate activation leads to the generation of an IL-10 producing regulatory B cell population that can modulate airway inflammation
<u>14</u>	Khan	Adnan	Trinity College Dublin, Dublin, Ireland	Exploring the B-Cell Repertoires of Lyme Borreliosis Patients as a potential Tool for Epidemiology, Symptomatology and Diagnosis.
<u>15</u>	Kirpach	Josiane	CRP-Santé, Luxembourg, Luxembourg	The role of B cells in the early stages of immune response against intracellular bacterial pathogen Francisella tularensis
<u>16</u>	Krocova	Zuzana	University of Defence, Hradec Kralove, Czech Republic	Alterations in circulating T follicular helper cells and T regulatory cells in autoimmune rheumatic diseases treated with B cell depletion therapy: rituximab.
<u>17</u>	Lutalo	Pamela	King's College London, London, United Kingdom	
<u>18</u>	Martin	Victoria Georgina	Kings College London, London, United Kingdom	Characterisation of Age Related Repertoire Changes within B cell Subpopulations
<u>19</u>	Mclaughlin	Laura	King's College University, London, United Kingdom	Correlation between the proportion of IgM-positive CMV gpB specific memory B lymphocytes and anti-gpB CD4+ IFN- γ production.
<u>20</u>	Menon	Madhvi	University College London, London, United Kingdom	Regulatory B cells interact with plasmacytoid dendritic cells in health and systemic lupus erythematosus
<u>21</u>	Migliori	Edoardo	Université Libre de Bruxelles, Bruxelles, Belgium	-
<u>22</u>	Murray	Fiona	Karolinska Institute, Stockholm, Sweden	Investigation of Autoantibodies Recognizing Homocitrulline in Rheumatoid Arthritis Patients
<u>23</u>	Nouël	Alexandre	University of Brittany, BREST, France	B-cells display an abnormal distribution and an impaired suppressive function in patients with chronic antibody mediated rejection

LIST OF ACCEPTED POSTERS

Nr	Surname	First Name	Institution	Abstract_Title
<u>24</u>	Silva	Joselli	FIOCRUZ (Oswaldo Cruz Foundation) Federal University of Bahia, Salvador, Brazil	CANINE VISCERAL LEISHMANIASIS AND SPLENIC PLASMA CELLS REDISTRIBUTION
<u>25</u>	Snir	Omri	University of Oslo , Oslo , Norway	Analysis of autoreactive gut-plasma cells and their memory compartment in celiac disease
<u>26</u>	Tahir	Romeeza	King's College London, London, United Kingdom	Diversification of lambda light chain genes during intestinal IgA response
<u>27</u>	Vitale	Gaetano	University of Udine, Udine, Italy	IL-10-competent B cell expansion and IL-10 production are differently regulated by immune-mediated and infectious stimuli
<u>28</u>	Wu	Yu-Chang Bryan	King's College London, London, United Kingdom	Insights into IgE repertoire in allergic rhinitis during grass pollen season
