SRG-MED

Professor Stig Slørdahl

The Research Council of Norway (RCN) ● Norwegian University of Science and Technology ● Norway

Expertise: **Clinical medicine** ● Cardiology ● *Cardiovascular diseases; blood flow velocity; oxygen consumption; exercise; exercise therapy; left ventricular function; echocardiography; stroke units*

Stig A. Slørdahl is Dean at the Faculty of Medicine at the Norwegian University of Science and Technology (NTNU) in Trondheim, Norway since 2005. He is Professor of Medicine (cardiovascular physiology) and specialist in internal medicine and cardiology. He is an attending physician at St. Olavs Hospital.

Stig was chair (still member) of the Joint Committee of the Nordic Medical Research Councils (NOS-M) from 2010-2012 and a member of the Core Group of the European Medical Research Councils (EMRC) from 2009-2012. He is a member of the board of the Division for Science at The Research Council of Norway. He is also a member of the board of SINTEF (the largest independent research organisation in Scandinavia), the Cancer Registry of Norway and he is chair of the Joint Committee for Health Research in Norway (NSG). His main research interests are in echocardiography, exercise physiology and heart-brain vascular interactions.
